C. K. MILLER, Post Master.

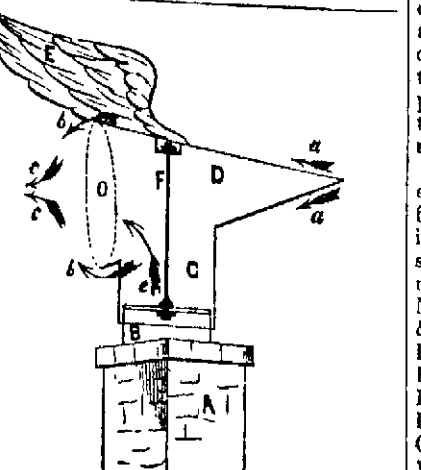

Bucksport High School, and Classical Institute.

THIS School, now in operation, will continue permanently under the care of JOHN B. L. E. A. B., an experienced and successful Instructor. It will be the purpose of the Principal, and of those who may be connected with him, to maintain one of the first rank—where, by means of a high and progressive course of study, a uniform intellectual discipline and a careful vigilance over the moral habits of the pupils, the children of both sexes may enjoy the greatest facilities for acquiring a sound, practical education. Thorough instruction will be given to young gentlemen preparing for college, fitting them to enter freshmen, or advanced classes. Terms of Tuition. For Common Studies, \$10; For Higher Branches and Languages, \$15. Board may be procured on reasonable terms. Permanent arrangements will soon be made, by which pupils from abroad will be accommodated at favorable charges. Full Term will commence September 11th, and continue eleven weeks.

KING GLASS & PICTURE FRAME MANUFACTORY.

MR. BARKS & HOLLAND, of BANGOR, are informed that we have established a manufactory for making LOOKING GLASSES, PORTRAIT AND PICTURE FRAMES, of all sizes and varieties. We have suitable machinery in all the branches of the art, by which much labor is saved and the price of rich and beautiful articles is greatly reduced. That a fine article may now take the place of a cheap and inferior one, and at as low a price. We have elegant O. G. and bevel frames, and several frames with rich mahogany veneer are secured in such quantities that we are prepared, at short notice, to fill all orders at wholesale. Dealers supplied with frames either with or without glass. Orders respectfully solicited for single or by the dozen; and as this is a new branch of Manufacture to any extent, we trust the public will be ready to encourage and support the enterprise. The convenience of our city friends, orders of any kind may be left at the Hardware Store of David Mosman on East Market Place. Bangor, July 26, 1843—d&wtf

ERT NOYES & CO. continue to manufacture that celebrated Ventilator and Smoke Pipe, as represented by Professor Esq., of which the "Smoky Chimneys" yet invented. Those by smoke are invited to call at Nos 13 and 15, and inspect and examine them. Particular attention paid to the manufacture of Tin Ware, and all kinds of Jobbing and Sheet Iron line attended to with dispatch. Bangor, April 27—2 mos

STEAM IRON WORKS.

FRANKLIN MUZZY & CO. IRON FOUNDERS AND MACHINISTS, Opposite City Hall, Bangor.

CONTINUE to manufacture at their Establishment every variety of Machinery and Castings used in this section of the country.

MACHINERY. Steam Engines, Turning Engines, Lathes and Screws; Shingle, Clapboard, Lath, Box, Sapping and Threshing Machines.

MILL CASTINGS. Cast Iron Reaction Water Wheels; Balance Wheels for Saw Mills; Mill Cranks; Gudgeons; Grist Mill Spindles; and an extensive assortment of Bevel and Spur Gearing, for Mills and Machinery.

STOVE CASTINGS. A large assortment of Fire Frames, from new and beautiful patterns; Cook Stoves, several kinds; Parlor Fire Stoves, of different sizes; an assortment of Box Stoves; and a great variety of Air-Tight Stove Castings.

PLOUGHS. An assortment of Ploughs from patterns greatly approved, and of the best Timber; Plough Points for a great variety of Ploughs. Also—Cart and Wagon Hubs, cast whole; Potash Kettles, Cauldrons, Fire Dops, Pipe Boxes, &c.

BAR IRON AND STEEL. Circular Saws; Blacksmithing and Composition Castings; Machine Casts from one of the oldest and most celebrated manufactories in Mass.

All the above will be found equal in quality to any in the market, and for sale on as reasonable terms. July 18—w

MARSH'S SUPERIOR PATENT TRUSS.

JUST received a large supply of MARSH'S SUPERIOR TRUSSES. Also a large stock of almost every kind constantly on hand. Likewise, ABDOMINAL SUPPORTER, of every variety—call at Aug. 25, G. W. LADD, d&w.

STEAM WORKS. FURNITURE ESTABLISHMENT. A. & E. DOLE & CO. CABINET-MAKERS, HAMMOND-ST. OPPOSITE THE COURT HOUSE, BANGOR.

THIS well known establishment has recently been enlarged and fitted up with a Steam Engine and a great variety of machinery for the manufacture of Cabinet Furniture of every variety, and suited to all tastes and all conditions of life, in a style of elegance and durability equal to any establishment, and at rates as low as similar articles can be purchased in Boston or elsewhere. Among the articles manufactured and kept on hand are: Mahogany hair-cloth Sofas—French Secretaries and others of all varieties—Bureaus of all kinds.

Tables. Centre, Pier, Card, Work, Dining, Pembroke, Toilet and Common Tables, with Marble or Mahogany tops. SINKS and WASHSTANDS. Mahogany, Bird's-eye and Common LOOKING GLASSES, a rich variety and of all sizes.

Mahogany stuffed Rocking, a luxurious article;—Mahogany, Bird's-eye, and Curled Maple; stuffed seat Parlor; Cane-seat of all kinds; Common of every variety.

A. & E. DOLE & Co. are prepared with excellent workmen in all departments of their business and give their entire personal attention to the practical details of their business. They are prepared to execute every variety of WOOD TURNING and SAWING WOOD WORK TO PATTERNS, such as Pew and Chair Arms, and small dimension stuff of various kinds.

They are determined to have their work well done and to sell as cheap as any body.

PATENT PLATFORM AND COUNTER BALANCES. One of this firm is the PATENTEE of the highly useful and popular Platform and Counter Balances for weighing merchandise. These they are continually manufacturing and sell them at much less prices than similar articles can be purchased in Boston or any other city in the Union. They ask the attention of the trading community to these balances as something superior.

We beg to suggest to all interested in the prosperity of our city and all down east, to encourage home manufacture when that manufacture deserves it.

All kinds of Country Produce and Lumber taken in exchange.

PIANO FORTES TUNED AND REGULATED. One of the firm, J. A. WOODBURY, will give particular attention to tuning and regulating Pianos, and those favoring them with their patronage shall have their Instruments tuned and regulated in the most thorough and scientific manner. If not to their satisfaction no charge will be made.

Terms for tuning \$1.00. Refer to LORD and COMSTON, Bangor; CHARLES SUMNER HILL, Boston May 26—d&wtf

PATENT MILL WHEELS.

THE Subscriber having for a long time given his attention to the construction and operation of Water Wheels, has finally succeeded in the invention of two kinds of Wheels for which he has received Letters Patent from the Government of the United States.

These Wheels are simple in their construction, cheap and durable, are easily put in operation, and are not liable like most other wheels to get out of order; they are not obstructed by back water, when the head is not diminished thereby; and the same power and speed is obtained, with about one half the quantity of water usually applied to wheels now in general use.

A great number of these Wheels are now in operation and give in all cases entire satisfaction; and for further information respecting them the following gentlemen are referred to, all of whom have some of said wheels in operation: Jacob Drummond, James B. Fiske, Amos Davis and Leonard March, Esqrs., Messrs. Fiske & Norcross, Foster & Gilman, S. P. & H. Strickland, W. T. & H. Peirce & Co. Bangor; Hon. J. S. Little, Portland; Hon. John Otis, Hallowell; F. A. Butman, Esquire, Dismont; Robert Treat, Geo. A. Peirce, Esquires, Frankfort; Daniel Dennett, Esq. Milo; Col. Henry Orne, Milton; Messrs. Fiske & Bridge, Milford; Ira Wadleigh, Esq. Oldtown; Capt. R. Fittz, Dedham; John Black and John M. Hale, Esqrs. Ellsworth; Messrs. A. Campbell & Co. Cherryfield; Daniel Harwood, Esq. Machias; Levi L. Lowell, Calais.

The above wheels are manufactured and for sale at the Iron Foundries of MESSRS. HINCKLEY & EGERY and FRANKLIN MUZZY & Co. in this city, who are furnished with a great variety of patterns, so that Wheels of any particular description, or adapted to any given head of water, can be furnished at short notice. They are also authorized to dispose of the Patent Right for the same.

SAMUEL C. VALENTINE. Bangor, July 11, 1843—d and wtf

GILMAN & CO'S. PORTLAND AND BOSTON EXPRESS. STEAM BOAT AND RAIL ROAD.

GILMAN & CO. will receive and forward Specie, Bank Notes, Packages and Parcels every MONDAY and THURSDAY mornings by Steam-er Charter Oak and Railroad, to Portland and Boston, and through Messrs. Harnden & Co., to any of the Southern and Western Cities.

Particular attention paid to the purchase and sale of Merchandise, to the collecting and paying Drafts, Notes and Bills, and to the transaction of all kinds of business.

AGENTS. Joseph H. Bryant, No. 43 West Market place Bangor. Winslow & Co., No. 47 Exchange St. Portland. John R. Hall, No. 8 Court Street, Boston.

HENRY GILMAN, J. W. RICHARDSON. Bangor Aug. 25, 1843.

PROSPECTUS OF THE MECHANICS' RECORD.

By a vote of the late STATE CONVENTION OF MECHANICS, a Committee was authorized to issue a Prospectus for the publication, in the city of Bangor, of a monthly periodical devoted to the interests of the Mechanics of the State, and to be the organ of communication between the different Associations already formed, and the means of increasing their numbers and extending their influence.

Agreeably to their instructions, the Committee now propose to their brethren, the Mechanics of Maine, the publication of a monthly periodical earnestly devoted to their interests—to all that concerns their social relations, their scientific attainments, and their progress in self-cultivation; a publication heartily engaged in disseminating a correct public sentiment regarding useful labor—in enlarging the boundaries of science, aiding in the improvement of the arts and in spreading useful information upon all subjects connected with education and the arts, as well as an organ of communication between the Mechanic Associations in the State.

It is confidently expected that the matter for each number will be furnished by the earnest thinkers in each of the Associations in the State and by men who are deeply interested in the onward progress of humanity, by means of a better and a wider spread intelligence among the people, and a broader extension of physical science and the mechanic arts.

The RECORD will be issued in a pamphlet form of convenient size for binding, upon good paper and a clear type, each number to contain as many pages as the amount of the subscription at the time of its publication will warrant.

TERMS. The RECORD will be furnished to each subscriber for one dollar a year in advance, and no subscriptions will be received without the pay.

Delegates to the State Convention, the officers of the several Mechanic Associations and mechanics generally are requested to aid in procuring subscribers and remitting the money, that the experiment so honorable to them, if successful, and so useful to the community may not fail for the want of their co-operation and influence. It is expected, also, that each Association will take immediate measures to occupy a portion of the RECORD in advancing the cause which the mechanics of this State, for themselves, have so unanimously undertaken.

The first number will be put to press as soon as notice is received of a sufficient subscription to sustain the publication.

JAMES R. MACOMBER, ABNER R. HOLLOWELL, OLIVER S. BEALE. Bangor, August 23, 1843.

A. DUNBAR & SON. AT ALLEN'S EDDY, NEAR THE ROSE PLACE, BANGOR.

GIVE notice that they have formed a connection in business, have provided themselves with the first quality of lumber, and are prepared to manufacture Window Sashes and Blinds of the first quality at short notice. They have on hand a large lot of ordinary sashes and blinds which they will sell at a low rate.

HOUSE CARPENTRY. They are ready to execute all orders for House joiner work of any description, in a style satisfactory to any one who may give them a call.

WAGONS. A. D. & Son are engaged in the manufacture of Wagons, and will be glad to receive orders for the same. They have also on hand several second hand wagons which they will sell at a cheap rate.

FURNITURE. They are manufacturing Tables and some other kinds of Furniture, and have made arrangements for answering all orders for furniture of any description.

EASY PAY. To avoid long and ruinous credits, they will receive in payment for manufactured work, Lumber or Country Produce at fair prices.

Customers may be assured that A. D. & Son have made arrangements for having their work done in a faithful and workmanlike manner, of good stock, in good style, at a fair rate and promptly executed.

Bangor, August 21, 1843—3tawd&wly

PAGE'S VEGETABLE SYRUP FOR FEMALES, ENCEINTE.

THE following gentlemen are the authorized Agents for selling the above mentioned valuable medicine, a medicine worthy the confidence of the public, and should be used by every female about to become a mother. It is invaluable in relieving the pains of lying-in women, as has been proved by hundreds of ladies who have used it, and by many physicians who prescribe it in their practice. There is nothing deleterious in its composition, and the most delicate female in any condition may take it with perfect safety. The price of it is nearly all cases where used is more than saved by the mother getting up, and recovering her strength so as to be able to dismiss her nurse one to two weeks sooner than in ordinary cases. All persons wishing for further information respecting it, are referred to a pamphlet of a dozen or more pages accompanying the medicine (which may be had gratis of any agent,) containing some general remarks upon the subject, proper and important to be read by all females, also several letters from physicians who have prescribed it, and from other gentlemen whose wives have used it.

In Bangor, G. W. LADD and G. W. HOLDEN; Hampden, Doct. N. Hanson; Bucksport, M. & W. G. Hardy; Prospect, Gilmore & Clifford; Belfast, W. O. Poor; East Thomaston, Doct. E. REMOVAL. COPPER AND BRASS FOUNDRY. JOSEPH PITMAN, HAS removed his Foundry to Smith's Bridge, near the Franklin House, BANGOR, ME.

where he will furnish at Boston prices, all kinds of Brass and Composition Castings for Ships use, such as Spikes, Bolts, Clinch Rings, Pintles and Braces, Tiller Blocks, brass strapped—Cabin Door, Companion Way, Forecastle, and Lead-Light Hinges, Brackets for Shingles, Tools, etc.

Machinery Castings of every description—Brass Harness trimmings of every variety and style. All kinds of Brass Work Repairing done with neatness and dispatch. Locks, Keys, Pumps, &c. repaired at short notice. Sept. 9. d&wlm

SHOES. LADIES' Walking Shoes and Gaiters, rec'd at may 19 FLAGG'S.

POLITICAL. Letter from Judge McLean.

We find the following excellent extract of a letter from Judge McLEAN in the Charlottesville Advocate, to which it was contributed by the gentleman to whom it was written. It breathes a spirit of probity and high-souled patriotism which must commend it to every American heart.

It was not written for the press, but is published for the purpose of placing its author in a proper position with regard to the mention that has been made of his name as a candidate for the Presidency:

"The office of President, in my opinion, has been lowered, and also the character of the Country, at home and abroad, by the means used to secure that office. High as the Presidency of this great nation is, it may be reached at too great a price. It sinks below the ambition of an honorable mind, when it is attainable only by a sacrifice of the loftiest patriotism. Not to name others, we have in the elevation of Jefferson, Madison, and Monroe, examples of a high and honorable ambition which is worthy of imitation. These eminent men when named for the office of President, reposing on what they had done and what their known capacities enabled them to do, in the highest public trusts, neither took nor seemed to take any agency in their own advancement.

"For many years I have been deeply impressed with the injustice, the corrupting and ruinous effects of political partizanship. Its introduction into the Federal Government, has well nigh ruined our beloved country. Before this base had perverted our moral sense, our love of country, and so far as politics are concerned, almost every noble feeling of the heart, we were happy, as a people, in the enjoyment of great and uninterrupted prosperity. And whatever may be said to the contrary, this terrible evil lies at the foundation of all our embarrassments. It has been mainly instrumental in the commercial revolutions we have witnessed, and it has prostrated our political morality. Our pecuniary losses, within a few past years, are almost beyond the power of comparison; but those are scarcely worthy of consideration in comparison with the loss, it may be the irreparable loss, of moral force in our institutions. The man must be blind to the admonitions of history who supposes that a free government can be long sustained, which addresses itself, with all its influence, to the baser passions of our nature. Such a course leads to a widely diffused corruption and consequent ruin. In my judgment, nothing can rescue our Government from this common fate of Republics, but a change in its political action. This action must be elevated. It must reach and rouse the moral tone of the nation. Instead of administering to the prostituted appetites of demagogues, it must rest on a virtuous and enlightened public opinion. It must gather strength by its acts—moral strength. Its aim should be the general good. The chief of the Government in making appointments should carry out the principles of the virtuous Monroe, who, on a certain person being recommended to him for an office, as a personal friend, with good qualifications, remarked with earnestness, 'No man can feel more grateful than I do for personal kindness, but in making this appointment I have a high public duty to perform, and I must look to the public interest.'

"A departure from these principles drove me, reluctantly, from political life; and in all sincerity I assure you that there is no political office, not even the Presidency, which could tempt me again into politics, on principles opposed to those which I approve and on which I endeavor to act.

"Pledges, when given by a candidate for public favor, should be received with suspicion, as they are generally made to answer a particular purpose and are seldom redeemed. No one, perhaps, should be named for the Presidency whose opinions, on the leading topics of the day, are unknown to the public. Until within a few years past, pledges were not required from the candidates for the Chief Magistracy. And I may ask what good has resulted from this innovation. Has it made our Chief Magistrate more faithful to the Constitution and their general duties? Let a comparison of our late history with the past, answer this question. Who thought

of asking a pledge from the venerated fathers of the Republic above named? A sound head and an honest heart, I think, are the best pledges. These will rarely fail; whilst experience shows that pledges are made to be broken.

"No one who is named for the Chief Magistracy, from a respectable source, should feel himself at liberty to say that he would decline a nomination for that office. But I beg you to believe, my dear Sir, that this remark is not prompted by a vanity which leads me to suppose, that my name could be favorably considered by the contemplated Whig Convention. The friends of Mr. Clay, in consideration of his eminent qualifications and long public services, are looking with no ordinary solicitude to his nomination. And I assure you, that I have no wish, by the obtrusion of my name to separate my friends, if I have any, from their present associations. I do not desire and would not receive the Presidency, if within my reach, as the instrument of a party. Indeed I should count it no honor, to have my name associated with the downward course of our Government; and such a course is accelerated, and only accelerated, by ultra partyism. To bring back the government to its old foundations, to restore its lost character, its former purity, energy and elevation, would be an achievement second only to that of Washington's—an achievement which would make any individual the favored son of his country. Of this who would not be proud? and short of this object, no honest man can desire the Presidency.

With the greatest respect, I am Your grateful and obedient servant, JOHN McLEAN.

From the Farmer and Advocate. Praises of Rural Life.

A PASTORAL.—BY A COUNTRY LASSIE. Though city ladies treat with scorn The humble farmer's wife, And call his daughters rude and coarse, I'll live a country life.

I'd rather spin, and weave, and knit, And wholesome meals prepare, Than, thronged with servants, dress in silk, Lounge in my easy chair.

I love to see my chickens grow, My turkeys, ducks, and geese; I love to tend my flowering plants, And make the golden cheese.

I love to wash, I love to sew, I love to bake and brew; I love to keep my kitchen neat, And humble parlor too.

And when the grateful task is done, And pleasure claims a share, With some dear friend, I'll walk abroad, And take the balmy air.

Not through the dusty, crowded streets, Amid the bustling throng, But in some pleasant, cool retreat, We'll hear the woodland song.

Or trace the winding silver stream, And linger on its banks, While all the birds, in concert sweet, Present their evening thanks.

We'll seek the ancient forest shade, And see its branches wave, Which have, perchance, a requiem sang O'er many a red man's grave.

We'll breathe the pure, untainted air, Fresh from the verdant hills, And pluck the violet from its bed Beside the laughing rills.

I love the country in the spring, When all is life and glee— When songs of joy, from every grove, Are wafted on each breeze.

The smiling pastures, robed in green, How beautiful and gay! With bleating flocks, and lowing herds, And little lambs at play.

I love midst rural scenes to dwell, In summer's pleasant hours, And pluck her sweet, delicious fruits, And smell her fragrant flowers.

I love to see the growing corn, And fields of waving grain— I love the sunshine, and the shade, And gentle showers of rain.

I love to see the glittering dew, Like pendant diamonds, hung On every plant, and flower, and tree, Their glossy leaves among.

I love the joyful harvest months, When stores are gathered in: I love to see the golden corn, And bending sheaves of grain.

I love to see the cellar filled With sauce, of various kinds— Potatoes, beets, and onions too, And squashes from the vines.

I love to see my father pluck The apples from the trees— They'll give us many a pleasant treat, And yield us sauce and pies.

I love to see the well filled barn, And smell the fragrant hay— I'll milk while brother feeds the lambs, And see them skip and play.

I love to rise before the sun, And see his rosy beams Glimmering through the waving trees, In quivering, fitful gleams.

I love, where nothing intervenes, The setting sun to see, Tinging the clouds with every hue That charms the gazing eye.

I love the country ev'ry where; Here let me spend my life; No higher shall my thoughts aspire— I'll be a farmer's wife. SARAH.

"Good, Sarah—that's right. If we can find one that is worth of you, we will send him along. [Editor.

The Lyceum.
The regular course of lectures before the Lyceum, commenced last evening. There was a sort of Scotch mist during the day, and this generally has a tendency to dampen any enterprise on foot, especially in this city. There was, however, a good attendance in the evening.
The lecture was delivered by Lorenzo Sabine, Esq., of Eastport, and was listened to with great attention and evident delight by his auditors. There is a straight-forwardness in all Mr. Sabine's performances that we have listened to, which is highly satisfactory.

His subject, last evening, was the Governors of Plymouth, (while it remained a separate Colony) and those of Massachusetts, anterior to the Revolution. He spoke of Carver, Bradford, Prince, the two Winslows, and Hinckley, of Plymouth; and of Cradock the first elected, and of Winthrop, the first actual or resident Governor of Massachusetts, and of Winthrop's successors as elected by the people to wit, Endicott, Thomas Hadley, Haynes, Sir Henry Vane, Bellingham, Leverett, and Bradstreet, and of Joseph Dudley, and Sir Edward Andros, who bore rule under royal commission, after the Second Charles revoked the charter. Of the occupants of the Executive chair, who, under the charter of William and Mary, were appointed by the Crown, he made mention of Sir William Phips, the Earl of Bellemont, Joseph Dudley, Shute, Burnet, (a son of the eminent Bishop of that name) Belcher, Shirley, Pownall, Sir Francis Bernard, Hutchinson and Gage. Of the lieutenant Governors, who occasionally administered affairs, he spoke of none, except William Taylor, of two of whose grandchildren, (the daughters of the celebrated wit, or Matha Byles,) he gave some interesting incidents.

With his biographical sketches, were interwoven brief accounts of the prominent events, which occurred in the time of each chief magistrate, and succinct notices of the state of colonial society, and institutions, at several periods. He spoke also of the families and descendants of most of the Governors; of the rank, service and honors of some, of the neglect and obscurity of others, and of the condition of such of them as became residents of Nova Scotia and New Brunswick. In conclusion he adverted to the different forms of the Colonial System, as it existed in the thirteen Colonies, and expressed the opinion, that some knowledge of the differences between the charter governments, the royal governments, the proprietary governments, and those which were as near to feudal aristocracies as to any thing, was indispensable to a right understanding of our colonial history.

As he finished, he said, the allegation, that frequent change of the Executive is an evil of Republicanism, is without foundation, inasmuch, as our Governors are changed but little oftener now than before the Revolution, and not so often as are those of Canada and New Brunswick, at this very time.

We have no space for a more extended notice of this Lecture, the delivering of which, occupied an hour and a half. But we cannot forbear to remark, that when speaking of the religious persecutions which stain our early annals, Mr. S. was sparing in his censures of those who were either actors in or promoters of them. His words of blame and reproof were few, save when dealing with Andros and Hutchinson.
The character of Sir Henry Vane, was evidently his favorite—for him no eulogium was too high, and next to Vane, in his estimation, apparently, were Winthrop, and the Winslows.

Election for Representatives.
The fourth trial for the election of Representatives of this city in the State Legislature will take place on Saturday next. In the first notice published in our paper there was an error in mistaking the figures "14" for "18," that mistake has been corrected and the notice is properly published for the election on Saturday the 14th inst. It is only necessary for the Whigs of Bangor to attend the polls and elect their candidates and have the matter closed up. To do this will require very little sacrifice of time on the part of each voter, and this slight sacrifice the wisest of them should cheerfully make. The importance of having the city represented in the next Legislature must be apparent to every reasonable man in the community. The interests of Penobscot in the Legislation of the State is as important and perhaps more so than any other section, and the interests of this city are deeply interwoven with those of the Penobscot region. The Whig candidates are men of ability and of experience in Legislation and will give their best energies to the interests of their constituents and to the honor and welfare of the State. Indeed any view that can be taken of this matter it seems that no Whig can find an excuse for staying away from the polls on Saturday next. We hope to see a full vote and an effectual one.

The editor of the Democrat says he omitted a portion of the report of the committee on manufactures of the P. Agricultural Society because it contained an argument in favor of supporting Home Labor. This he thought was political and opposed to his party views and he would not publish it.
The inference from this acknowledgement is that the editor of the Democrat is opposed to home manufactures, or to the people in this country encouraging manufactures among themselves, even by engaging in them or by encouraging others to do so. This is certainly carrying the doctrine of Free Trade to an uncommon length and conflicts with certain recommendations we have at times seen in the Democrat for its readers to encourage mechanics at home by purchasing their work. It so happens that not a word is said in the report alluded to about protection—not a word about a tariff—not a word about the duty of government, nor a word about the action of the government relative to the matter. It was an argument based upon the local position and natural resources of Penobscot county, for the people in their business transactions to sustain their own mechanics. If this is partly what we are very glad to say that it is consonant with the Whig creed. If the Democrat is prepared to attack this position as opposed to his political notions we wish he would widely proclaim it.

Fire at Carmel.
The Democrat of yesterday states that the new dwelling house and barn belonging to Mr. Paul Varney of Carmel, were consumed by fire on Sunday night. The house had just been completed and Mr. V. was about removing his family into it. It is supposed that some fiendish person set it on fire. The barn contained twenty tons of hay and in the cellar of the house there were two hundred bushels of potatoes.

The Haverhill (Mass.) Gazette, that has for three or four years been published by William E. P. Rogers, Esq., formerly publisher of the Whig & Courier, in this city, has been transferred to Mr. Edward G. Frothingham, who will continue to keep the Whig flag gallantly floating at the mast head. Now our friend Rogers is at leisure, we hope he will make a visit to his eastern friends.

Modern Oil Paintings.
Messrs Pillsbury & Sanford will sell a large collection of modern oil paintings, some of them beautiful marine scenes, at the City Hall this day. These pictures and in good frames are ready to be immediately transferred to the parlors of the purchasers.

The first number of a new paper, published at New York entitled The Philanthropist or Journal of Social Science, devoted to the advocacy of the Social Principles discovered by Fourier and of a Social and industrial reform, has been received in this city by Dr. Josiah Dean. Subscribers can obtain copies by calling at his office.

Penobscot Agricultural Society.
Report on Fruit.
To the Committee on Crops of the Penobscot Agricultural Society.

The undersigned, appointed a sub-committee to examine and report upon the fruit this day presented at the Fair, have attended to that duty, and report as follows, to wit:
David Crowell, of Exeter, presented twenty-five varieties of fall and winter apples. As he presented all the varieties of his competitors, and several others, which they did not present, your Committee adjudged him entitled to the first premium of \$4 for the best specimen of winter apples.

Henry Butman, of Dixmont, presented three fine varieties of winter apples and one of fall apples. For this last specimen—the Corlies, or early fall sweeting—your Committee adjudged him entitled to the first premium of \$2.00 for the best specimen of fall apples. They also adjudged him entitled to the fourth premium of \$1.00 on winter apples.

Isaac Pierce, of Etta, exhibited twelve specimens of excellent apples, in fine order. To him your Committee award the premium of \$1.00 for the second best fall apples, and the third premium of \$2.00 on winter apples.
Winthrop Chapman, of Exeter, entered seven varieties of fine apples. Your Committee judged him entitled to the second premium of \$3.00 for the second best specimen of winter apples.

Very nearly the same varieties of apples were offered for examination by all the competitors, and in awarding premiums your Committee endeavored so to distribute them as to do equal justice to all. Where one gentleman presented the best specimen of fall apples and received the first premium offered for such specimen, although he presented a specimen of winter apples equal to that of any competitor, justice required that another should receive the first premium for winter apples. The same principle governed all the awards for the several kinds and qualities of apples.

Your Committee take pleasure in being able to state, that they believe the specimens of apples examined and passed upon by them this day were equal in every respect to those raised in any other State in the Union. But, at the same time, they must express their regret that apples were the only fruit presented. The soil and climate of this county are well adapted to the growth of many other desirable kinds of fruit, and a ready market will ever be found for them in this city. It is to be hoped that another year will see our exhibition table graced with rich varieties of pears, plums and grapes, the produce of Penobscot.

ALLEN HAINES, SEWALL STANLEY, ALVIN HAYNES, } Committee
Bangor, Sept. 27, 1843

Texas.
We fear, says the Mercantile Journal, that this country is destined to be a source of trouble and discord to the United States. The correspondent of Hill's Patriot, writing from Washington under date of Oct. 1, says:
"The Texas question bids fair to agitate the country soon, more than ever the Missouri question did. It is to involve in its consideration not only our relations with ourselves, as individuals or States, but our relations with foreign powers. The discussion of the subject at the coming session of Congress will be warm, it not angry—and it is more than probable that this great question will give rise to new combinations of parties. One thing may be relied upon by the administration is determined to counteract the ridiculous designs of England, and prevent their accomplishment, and to effectually succeed, there is now said to be but one course of policy advisable, i. e. the annexation of Texas to our country."

Here is an extract from the address of Rev. O. A. Brownson, at the Vermont University. It is worth considering at this time, especially as there is no little glorification, by many, of the progress of the present age and its superiority over all the past—
The tendency is to make the many everything, the few nothing. Even the ministers of the Gospel are held responsible to the congregations which they have been appointed to guide! so that instead of seeking to discharge their duty, they are forced to secure the approbation of their people. The ministry thus loses the independence of the profession. The pulpit echoes the popular convictions, the popular prejudices, passions and errors. The sermons which used to be listened to by our ancestors are thought dry and harsh, and kept on shelves and in chests to be gazed at, like old armor of the middle ages, which men keep and look at in perfect astonishment that there should have been men men large and strong enough in wear it. One or two of these old sermons have sound divinity enough to them to supply a modern popular clergyman all his life time Sundays and week days to boot. The religious press is affected in the same way. There is scarcely a question in religion or morals of any magnitude, discussed solidly or learnedly among us.

The Legislatures of the State, in their anxiety to shut out everything secular, have shut out every thing religious, our statesmen applaud themselves for being above all these sectarian discussions—they boast of being altogether too high to descend to these puny affairs, and profess to look down upon these contests and great theological questions as they would on a disturbance among a nest of ants when a hillock had been casually overturned. Thus are we struck with the dreadful curse of spiritual indifference. The real cause is that our statesmen want the votes of all the different sects, and our writers want readers from them all.

Character of a Whig—By Doctor Franklin.
The Whig lives in every State, but wishes to live only in a free State. He claims no right to himself, but what he is willing to give his neighbor. He is not lifted in sects by sounds, nor kept in them by prejudice; his mind is not contracted by systems, nor sordid by bigotries; it is open to God and nature. He is not attached to person or faction; but to things, to justice, to liberty, to virtue, to his country. He adheres to the men who adhere to these, and adheres to them no longer than they adhere to these. With like contempt of promises and menaces, unworn by power, he is attached to these. Not lurking as a drone, to reap what others sow, he earnestly acts his part in society, he endeavors within his sphere to promote the general welfare. No matter what you call him, what his rank, his profession, or the title of his religion, this is the Whig, and many such to their immortal honor has Providence raised up for the defence of liberty.

Great Discovery.
A fine river, emptying into the ocean two degrees north of the equator, on the eastern coast of Africa, has just been discovered. It is described as a clear, meandering stream, navigable for five hundred miles. It was named the "Haines," by the discoverer, Mr. Christopher, of the East India naval service. Its banks are in a high state of cultivation, producing grain in abundance. The natives are civil and obliging. The importance of this discovery is great in a commercial view, but regarded as the means of penetrating, christianizing and colonizing Central Africa, its value is incalculable. —Journal

Arrival of the Great Western.
The steamer Great Western arrived at New York on Saturday morning, with papers and letters to the 23d ult. from Liverpool. The news of course is but three days later than that brought by the Acadia.

We are indebted to the editor of the Boston Courier for an extra containing the news;
The Overland Mail had not yet arrived, and the delay caused a stagnation in business among the dealers in many articles likely to be affected by the news when it should arrive.
It is stated in a Havre Price Current that in consequence of the operation of the American Tariff, the export trade of that place is very limited, and freights scarce. Business generally was dull.

There was a reported conspiracy at Paris, discovered about the 19th ult., in which twenty persons were engaged, but it amounted to little or nothing.
It is stated in the European Times that "Freights to America by the transient ships have been low of late, though a slight improvement has been visible during the last few weeks. All the transient vessels to New Orleans, Boston, and New York, have been chartered by good parties, but the goods offering have not been numerous."

DUBLIN, Sept. 10
The Dublin Freeman's Journal gives the following statement from a correspondent:
"Mr. J. Darcey Fox, of Foxbrook, County Meath, three miles beyond Trim, a Protestant gentleman of respectability, having recently joined the repeal ranks, the country people, to show their gratitude, assembled in great numbers, and cut down and made up his corn gratis."

Five years arrears of rent being due to the landlord, his agent determined on distraining Mr. Fox, and so put keepers on the property; but having heard, or most probably dreamt, that five thousand Repealers "had sworn with pitchfork and flail" to prevent the seizure, and having consulted with Captain Despard, the stipendiary magistrate, it was agreed upon between them that the aid of the police force would be altogether insufficient.
O'Connell continues as active as ever. All his energies appear to be absorbed in his present agitation, which leaves him no time for rest or retirement. All parties admire the herculean energies which he brings into action. He made a speech at a great meeting at Connemara on the 17th, which is said to be one of the most beautiful and eloquent he has delivered for many a day.

Italy.
Bologna is again in a state of agitation.—Some time since the Government announced that the insurgents were beaten and dispersed; but on the 3d, it was ascertained that they had re-assembled in the mountains. It is said that the Government had made propositions to the chiefs of these guerrillas to give them passports to foreign countries. It appears that these proposals have not been accepted, and the guerrillas have returned to their former position, where they have a great number of partisans.

Georgia Election.
In Richmond County, the Whigs have succeeded in carrying their entire ticket by majorities of from 150 to 200 votes, which is a gain over last year of two members in the Legislature. Chatham County has been carried by the Whigs with a decided gain. Crawford (Whig) received 738 and Cooper (Loco) 672. On the votes for Congress and the State Senate the gain is still greater. A. H. Stevens and A. H. Chapell (Whigs) receive each 734 and Johnson and Stark (Loco) 674. This is a Whig gain on the last election of 1832. This looks bright and cheering.

Accident to the Steamer Worcester!
The steamer Worcester, coming from New York up the Sound, on Saturday night in the midst of the severe storm, broke her shaft, piston rod, and cylinder head, while off Huntington. The boat was obliged to wait there till the steamer Globe came up, Sunday forenoon, which towed the Worcester to Hart's Island.—From thence the Curtis Beck towed the Worcester back to New York, with passengers, who left New York again Sunday afternoon for Boston, and arrived Monday morning.

Mr. John H. Paine, Consul of the United States, has transmitted to Washington a translated copy of a decree issued by Achmet Pacha Bey, of Tunis, to prevent the introduction of counterfeit coin with which, it seems, the dominions of his highness have lately been infested.

Mr. Nathan Conant of Fitchburg, put an end to his existence by cutting his throat on Wednesday last. The cause which led to this rash act, is not stated.

Two barns belonging to Mr. Oliver, in Dorchester, were destroyed by fire between 7 and 8 o'clock on Saturday evening with their contents. The fire is supposed to have been set by an incendiary.

The Montreal Herald States that in the country parts in Canada, thousands are glad to work for \$2 a month!

The news by the Great Western was received by us in the evening edition of the New York Tribune. The conductors of that paper have our thanks for their successful efforts to give their eastern friends the latest news.

T. P. MERRIAM'S PATENT
Premium Water Proof Composition,
—OR—
OIL OF BARK,
For Blacking and Preserving New, and Renovating Old Leather.

THIS highly approved Oil, or Composition, is now offered to the Public as an article which stands unrivalled as a Leather Preservative, and as a Water Proof Composition, when the leather is thoroughly saturated or filled. Having received the premiums from the Mechanics' Fair, in Boston, and from the American Institute, in New York, and testimonials from a large number of the best Stable Keepers, Carriage, Harness, Boots and Shoes Manufacturers; also from Tanners, Curriers and a large number of Gentlemen who have used it—as being the cleanest, and entirely superior and at least fifty per cent cheaper, than any article now in use, for Softening, Blacking, Polishing, Strengthening and Preserving Chaise and Carriage Tops, Harnesses, Engine Hoses, Fire Buckets, Wheel Belts, Boots, Shoes, Trunks, also, for Renewing the Polish on old Patent Leather, and preventing it from cracking, removing all the gummy substance, fry, blisters, &c. by scraping it with a smooth case knife and sand paper before the leather is dry, leaving it in the same smooth state as it was when new. This Oil leaves the leather in such a smooth state that the dust does not stick to it nor does the water or weather have any effect upon it, preventing Boots, Shoes, &c. from shrinking when wet. This Oil is extensively used for Blacking and Crumpling Boots, without the aid of water to the leather, blackening and softening in a delightful manner. Good blacking will bring a much higher polish after this Oil has been applied than before, and for new Boots and Ladies' Kid Shoes, it will be found the best article ever used, as it softens the leather, and makes it fit in the foot like a cloth shoe. This has been proved by many gentlemen, that before using it, who could not wear leather Boots or Shoes. When properly used, and well rubbed with a woolen cloth, nothing can be rubbed off, and will prevent the leather in all situations, from cracking or blistering, and will keep it in a great measure from moulding.

PARTICULAR NOTICE.
N. B.—Be particular in all cases to observe that none can be genuine without the written signature of T. P. Merriam on the yellow printed wrapper in his own hand writing, with blue ink and stained backwards, and his seal T. P. M. stamped on the stopple of every bottle and one certificate on every label. Each bottle will be enclosed in a loose wrapper with certificates of its utility &c.
CAUTION—If all infringements on this Patent will be dealt with according to the law.

SANDS' SARSAPARILLA.
FOR THE REMOVAL AND PERMANENT
CURE OF ALL DISEASES ARISING
FROM AN IMPURE STATE OF
THE BLOOD, OR HABIT
OF THE SYSTEM,
NAMELY:
Scrofula, or King's Evil, rheumatism, obstinate cutaneous eruptions, pimples, or pustules on the face, blotches, biles, chronic sore eyes, ring worm or tetter, scald head, enlargement and pain of the bones and joints, stubborn ulcers, syphilitic symptoms, scintica, or humbug, and diseases arising from an injudicious use of the mercury, ascites, or dropsy, exposure or imprudence in life. Also, chronic constitutional disorders will be removed by this preparation.
The proprietors submit to the public the following certificate, from a highly respectable source, of a cure made by using their preparation of Sarsaparilla, which cannot but have the effect of placing beyond all doubt the curative powers of the medicine.
NEW YORK, August 3, 1842.
"Messrs. Sands—Gentlemen: Under a feeling sense of gratitude inherent to us all when suddenly relieved from suffering and disease, I now, as an act of justice due to you, and with a view of relieving the afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaparilla. In the year 1832 I sailed from England in a vessel bound for Quebec, and while on the passage first discovered the disease which after proved to be a sore affliction; and truly I can say, 'From the crown of my head to the sole of my foot there was no soundness in me.' From the time first mentioned down until the present, a period of more than ten years, I have suffered all that human nature was capable of bearing. I have been under the care of the most distinguished physicians both in this country and in England, visited Bath, Cheltenham, Bristol and Gloucester, tried various specifics, among others a large quantity of Swain's Panacea, used sulphur baths, &c. As a last resort I was induced to wrap myself in a tar ointment, keep myself secluded, shunned by all, myself also shunning. I was induced to believe my case a hopeless one.
In August last, by the advice of friends, I went to the New York City Hospital, but was there told that my case was incurable. The disease now enveloped my whole body, rendering me almost helpless; the skin thickened and cracked and blood and matter ran, and life itself became almost a burden. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, having spent nearly \$3,000 without obtaining but little relief. After using it a short time, I found myself better, and now, by using six or eight bottles, costing me less than ten dollars, I am well. Yes, I certify and declare to the world, that after spending near \$3,000 in travelling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparilla; and I now recommend it to all similarly afflicted. Those wishing to know further particulars will find me at my residence, No. 27 Warren street, New York, where I shall be happy to communicate any thing in relation to the above cure.
Prepared and sold by A. B. SANDS & Co. Druggists and Chemists, Granite Buildings, 273 Broadway, corner of Chambers street, New York. And for sale by Druggists throughout the United States. Price \$1 per bottle, six bottles for \$5.
The public are respectfully requested to remember that it is Sands' Sarsaparilla that has and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject, and ask for Sands' Sarsaparilla, and take no other.
G. W. LADD, Agent for this vicinity, and dealers will be supplied very low by the dozen.

HIGHLY ESTEEMED MEDICINE.
FOSTER'S EGYPTIAN BALM OF LIFE.
OR NATURE'S GRAND AND GENIAL AUXILIARY.
A SPECIFIC for Consumption, Great Bodily Debility, Old and newly formed Coughs, Flatulency, Indigestion and Bilious Disorders, Constipation and Diarrhea, Scorbutic and Scrofulous Affections and Female Complaints.
The Egyptian Balm of Life being an invaluable Family Medicine, should not be neglected in the Spring and Fall by any member of a family, as a Grand Auxiliary to the efforts of nature, in throwing off superfluous humors, generated in the winter and summer months, thus preventing as well as otherwise curing the above distressing maladies, and giving a healthy tone and proper action to all the grand operations of the system.
This Medicine has long sustained an unrivaled character for excellency in the private practice of many eminent practitioners in Europe, yet remaining at the same time undervalued in the possession of the individual of whom it has been purchased.
It is now exerting a salutary influence on this side of the Atlantic, and it is recommended to those who may be laboring under any of the diseases for which it is designed as a specific, and also as a preventive of disease, on its first appearance.
For a more particular description of the above medicine we would refer to the envelope accompanying each bottle.
Many valuable certificates might be produced of the benefit received therefrom. Hundreds in the State of Maine, as well as in other States, can testify to its superior efficacy, but the proprietor is willing for the public to judge for themselves by trial. A few names however, are referred to in the envelope accompanying each bottle.
Foster's Celebrated Nerve Ointment,
For the cure of Sprains, Bruises, Cramp, Rheumatism, Contracted Muscles, Sore Throat, Stiff Neck, Pain in the Breast, Back or Joints, Throat Distemper, the Piles, &c.
The general testimony concerning this Ointment, from those who have proved its merits, is, that it is too valuable a medicine to be neglected. And indeed we might fill a book of an hundred pages in giving incidents of its happy effects on the suffering.
N. B. The above Medicines are prepared only by W. A. Greenough, Portsmouth, N. H., and sold wholesale and retail by him.
Also, sold wholesale and retail by G. W. LADD, Bangor; sold also by Eld. C. Ripley & J. Knowlton, Newburg; Winthrop Frost, Lincoln; S. Lang, Palmyra; H. C. O. Washburn & Co., Belfast; G. Moore & Clifford, Cape Elizabeth; L. B. Mudgett, North Prospect; Robert Thompson & J. B. Chick, Frankfort; Arty & Nourse, Hampden; Richardson & Kennedy, Old Town; E. P. Butler & Co., Orono.

LIN'S CELESTIAL BALM
OF CHINA.
Statements honest, plain and true. Will you believe and profit by them, or neglect and suffer.
THIS Balm or Salve will be found unlike any other preparation. There is no Fiction or imagination in its qualities. It will cure any sore that can be cured at all. It will take out inflammation, and take down swellings; and by thorough friction over the parts externally, will by counter irritation, remove inward soreness to the surface.
A YOUNG WOMAN, for years afflicted with a running sore, called a fever sore, cured by the use of this Balm in about three weeks.
A CHILD, with great hoarseness and difficult breathing, relieved and cured by rubbing it well on the chest and stomach, and covering a flannel with the Balm and laying it over the breast.
A JUDGE of one of our courts had piles several months without knowing the name of his complaint; he used one flask of this Balm and was cured.
A GENTLEMAN who had an attack of piles every year regularly for ten years, cured himself five years since by this Balm, and though plainly threatened at least fifty times since, has kept off an attack by rubbing on the Balm when any uneasiness, soreness, or fulness is felt about the parts.
A PRISONER cut a frightful gash in his foot with a piece of broken glass; he was cured in a few days by the Balm. The same bottle cured all the sore fingers, legs and feet in the prison.
AT THE ASYLUM for Aged and Indigent Females, it has been used with signal success. One of the lady patronesses, Mrs. Nixen, has left her name, and wished scribbles referred to these facts.
NO MAN OR WOMAN can possibly have the PILES if they use this Balm well when they feel any uneasiness about the parts. It is far better to prevent than cure any calamity or ailment.
DIRECTIONS, &c., FOR ITS USE.
FOR THE PILES—If the parts are very sore, reduce a little of the Balm by mixing half with oil. After one or two trials that way, you must use it without reducing it. You never can use too much at a time—if a whole bottle could be absorbed in two applications, by long friction, it would be all the better.
IF COSTIVE, use it well before going to stool—this will do wonders.
TO PREVENT any attack of the Piles, you must use it whenever you feel a fulness of the parts, and an attack will be impossible. Hundreds thus keep off this dreadful complaint entirely.
INTERNAL PILES
May be reached by injecting it with a syringe, with a large open point to it. This syringe, made expressly for injecting this, and the Dalley's salve, or Hays' liniment, may be found with those who sell these articles. See drawing. Or in some cases may be reached with the finger, or covered with a piece of silk smeared with the Liniment.
PROJECTING PILES.
That won't return at all, may be reduced by white lead, ground in oil, and put on over-night, say a spoonful from a paint shop.
VERY COLD WATER should be applied by washing the parts well after stools, particularly if just before bed-time.
In very old cases of Piles, when there is apparent by a deposit and discharge from the parts, or when the parts are very sore or inflamed, use "DALLEY'S PAIN EXTRACTOR" alternately with the "CELESTIAL BALM," and your cure is certain. Use the syringe.
Hoarseness, etc.
IN DIFFICULT BREATHING—Spread it on linen or flannel, and lay it on the breast, after having rubbed the breast well with it—the relief will be felt directly. So with Coughs, and especially with Hoarseness, or Sore Throat—rub till the skin becomes tender, then spread it on flannel, and bind it on, and you may depend it will cure you. If you do not believe it now, you will when you have once tried it.
Rheumatism.
RHEUMATISM, and all pain in the joints, and stiffness, must be cured by it by rubbing the parts until the skin becomes tender, and then binding more on well with flannel.
Address COMSTOCK & CO., Wholesale Druggists, 71 Maiden Lane, New York.
[For sale by G. W. LADD, corner of Smith's Block, A. P. GUILD, Exchange street, G. W. HOLDEN, West Market Place, and N. B. FOLSOM, Jr., Bangor.

OILED CLOTHING.
SUPPORT HOME MANUFACTURES!
MASON H. WILDER,
69 Broad street, Bangor,
MANUFACTURER and Dealer in Oiled Clothing, Tarpaulin Hats, Glazed Caps, India Rubber Aprons for Lumbrmen, &c. Dealers in want of these articles, will find it to their advantage to call, as he sells cheaper than can be bought in Boston or elsewhere, and as good as the best, as the rapid sale of the article proves; notwithstanding the efforts of some of those who have Western clothing to sell, to make people believe that a garment oiled in the State of Maine, cannot by any possibility whatever, keep out the water.
Clothes re-oiled at short notice. India Rubber cloth prepared for carriages and knapsacks.
He will also attend to the business of HANGING PAPER neatly and promptly.
Bangor, June 30, 1843.

Dr. D. Jayne's
FAMILY MEDICINES.
JAYNE'S EXPECTORANT.
THIS invaluable medicine is daily effecting some of the most astonishing and wonderful cures that have ever been known. All who have used it for Asthma, Coughs, Spitting of Blood, Whooping Cough, Croup or Hives, Consumption, Chronic Pleurisy, Hoarseness, Pain and Soreness of the Throat, Difficulty of Breathing, and every other disease of the LUNGS and BREAST, can and do attest to its usefulness. BROUCHITIS, a disease which is annually sweeping thousands upon thousands to a premature grave, under the mistaken name of CONSUMPTION, is always cured by it. The usual symptoms of this disease, Brouchitis, are Cough, Soreness of the Lungs or Throat, Hoarseness, Difficulty of Breathing, Asthma, Hectic Fever, a Spitting up of Phlegm or Mucus, and sometimes Blood. It is an inflammation of the fine skin which lines the inside of the whole of the wind tubes or air vessels, which run through every part of the Lungs. The Expectorant immediately suppresses the Cough, Pain, Inflammation, Fever and Difficulty of Breathing, and produces a free and easy expectoration, and a cure is soon effected.
It always cures ASTHMA. Two or three large doses will cure the CROUP, or HIVES of children, in from 15 minutes to an hour's time. It immediately subdues the violence of WHOOPING COUGH, and effects a speedy cure. Hundreds who have been given up by their physicians as incurable with CONSUMPTION, have been restored to perfect health by it.
It is the Expectorant given in the commencement of PLEURISY, INFLAMMATION OF THE LUNGS, or in acute RHEUMATISM, in doses sufficiently large, so as to cause a little warm, it will produce perspiration, and subdue these affections at once.
PRICE \$1.00.

Tonic Vermifuge.
WORMS IN CHILDREN. Of all diseases to which children are exposed, none are so fatal to them as Worms. Unfortunately, children are seldom free from them, and as they imitate the symptoms of almost every other complaint, they often produce alarming effects without being suspected. They are not only a cause of disease themselves, but by their irritation aggravate all other diseases, wandering from one part of the body to another, winding themselves up into large balls, and obstructing the bowels, and frequently the throat, causing convulsions, and too often death. The desired remedy will be found in Dr. JAYNE'S TONIC VERMIFUGE, which will very safely destroy the worms, and invigorate the powers of digestion so as to prevent a return of them. PRICE 50 cents.
JAYNE'S CARMINATIVE BALSAM.
This is one of the most efficient, pleasant and safe compositions ever offered to the public, for the cure of the various disorders of the Stomach and Bowels, and the most valuable remedy for the cure of CHOLERA INFANTUM or SUMMER COMPLAINT, and in the above and following diseases, it really acts like a charm, viz:
Dysentery, Diarrhoea or Looseness, Cholera Morbus, Summer Complaint, Cholera, Griping Pain, Sour Stomach, Sick and Nervous Headache, Heartburn, Water-brash, Pain or Sickness of the Stomach, Vomiting, Spitting up of food after eating, and also where it passes through the body unchanged; Want of Appetite, Restlessness and inability to Sleep, Wind in the Stomach and Bowels, Hysterics, Cramp, Nervous Tremors and Twitchings, Sea Sickness, Faintings, Melancholy and Lowness of Spirits, Fretting and Crying of Infants, and for all Biliary Affections and Nervous Diseases.
PRICE 50 cents.
Hair Tonic.
NO EXCUSE FOR A BALD HEAD. Since the important discovery of Dr. JAYNE'S HAIR TONIC, every one may, if they choose, preserve their hair from falling off, or if already bald, may with certainty have their hair restored again by a faithful and persevering application of this valuable HAIR TONIC.
Please to read without prejudice the following communication, which, in addition to hundreds of others equally respectable, should remove the doubts of every reasonable person of the uniform and singular efficacy of JAYNE'S HAIR TONIC.
HAMILTON, Feb. 15, 1840.
Dr. D. Jayne—Dear Sir: I cannot say my hair is restored, but I can say that it appears to be in as rapid a process of restoration as could reasonably be expected. I had not finished the first bottle, before a decided change was manifest over the bald part of the head, to which it was applied. A new growth of fine glossy hair, much like that of an infant, appeared, and has continued to increase, and I have had it cut two or three times. I have recently commenced upon the third bottle, but have been a good deal irregular in the use of the Tonic from the first, and from this cause I apprehend the effect is not present less than it otherwise would have been.
I began the use of the Tonic with little or no faith that it would ever be successful on my head, though I felt entire confidence in your statements of what it had done for others; and I was as much surprised as delighted when I saw the effect. You recollect the appearance of my head when in your office. I assure you the hair has been nearly, if not quite, an inch long at the times I have had it cut, on those parts which were nearly destitute of any when you saw me. It was, however, very fine, though quite thick. I am flushed with sanguine hopes of final success, in the diligent use of your Tonic, which, amidst all the hair diseases which have been advertised in the papers, I am constrained to believe is what it claims to be, and that it will make the hair grow, and no mistake, at least on some heads.
GEO. W. EATON,
Prof in Hamilton Lit. and Theological Seminary, Madison County, New York.
PRICE \$1.00.

Jayne's Sanative Pills.
These Pills are an excellent, mild and safe purge at all times, and are exceedingly useful in Dyspepsy and obstructions of the Liver. Persons taking them can eat and drink as usual, without fear of injury, and what is of infinite advantage, making the use of mercurial preparations, so frequently used in derangements of the stomach and liver, unnecessary.
These Pills may be taken at all times, and are beneficial in nearly all diseases. They have long been a favorite prescription of the proprietor for all obstructions of the Liver, Spleen, Kidneys, Uterus, and all other organs of the body—Inflammation, Intermittent, Remittent, Bilious, and every other form of Fever—Jaundice and Liver Complaint. For Dyspepsy they are equally an invaluable article, gradually changing the vitiated secretions of the stomach, and producing healthy action in that important organ. They are very valuable in diseases of the Skin, and for what is commonly called "impurities of the blood;" also for Female Complaints, Constipation, &c., &c., and in fact every disease where an Aperient, Alterative or Purgative medicine is required.
For four-fifths of the numerous and distressing cases of DYSPEPSY POSITIVELY CAN BE CURED by a persevering use of this valuable SANATIVE.
They are expressly prepared to be used as an Aperient, when purging is necessary, while using Jayne's Expectorant, and for the removal of obstructions in the Liver, which are often attendant on some of the diseases of the Breast.
Prepared only by Dr. D. Jayne, Philadelphia.
And for sale, Wholesale and Retail, by SMITH & FENNO, Bookellers, 14 West Market Square, Bangor, Aug 23 wewly

Dr. J. D. Buzzle's
CELEBRATED FAMILY MEDICINE.
THESE Medicines are purely Vegetable, and are used in various parts of the United States, the British Provinces and the West Indies. They are particularly intended for the removal of such Chronic diseases, such as habitual or periodical Headaches, Catarrh, Consumption of the Lungs, various affections of the stomach, liver, bowels, kidneys, urinary vesicle, glands, &c. Dropsy, Rheumatism, Gout, Jaundice, Biliousness, and anti-cancer preparations. They generally improve, their effect is opening obstructions, moving all morbid and offensive matter from the stomach and bowels, which he reason to think is always the most effect in all cases within the control of medicine. They operate as preventives in various epidemic diseases, such as Intermittent, Influenza, Biliousness, Cholera, Typhus fevers, Inflammations of the Lungs, Pleurisy, Cholera Morbus, &c.; also as powerful remedies to some contagious diseases, such as Yellow Fever, and Putrid fevers, and although there are some venereal diseases which are not capable of preventing, from many years experience, has become convinced, that all those who contract any of those diseases, while under the influence of these medicines, take in the secretory and excretory vessels of the digestive organs, are but slightly affected, and are really cured—whereas, on the contrary, doubtless in many cases they would prove not only distressing, but uncontrollable and dangerous.
Vegetable Bilious Bitters.
Prepared exclusively at his Dispensary in Cape Elizabeth, Me. These Bitters are particularly serviceable in all cases of obstruction of the stomach and bowels, and in chronic affections of the liver, and particularly serviceable where there is a loss of appetite.
Jaundice Mixture.
This Mixture will be found a speedy and safe cure for Jaundice, and of singular service in all cases where the bowels have lost their proper tone, or have become torpid, attended with obstinate obstructions. It is also an efficacious remedy for biles, and for which the directions accompanying the medicine are to be strictly observed.
Hemorrhoidal, or Pile Powder.
This medicine may be relied upon for immediate relief; and their use persevered in, will effect a cure.
Compound Strengthening Plaster.
A local weakness, or a pain in the chest, stomach, side, or back, will, in most cases, be removed by the application of this plaster to the part affected.
Ointment for the Cure of Cutaneous Eruptions.
A few suppurating applications of this ointment, morning and evening, will be found a safe and efficacious remedy in all cutaneous eruptions. It is a remedy for eruptions of the face, with which children are so often afflicted, and even in cases of scald head, a loathsome eruption of the head, in which state it is covered with a numerous scurf, it is a safe application, effecting a cure. It will generally cure that troublesome and truly disgusting humor, called by many the Barber's or Jacker itch, observing in all cases, to take the ANTI-EMETIC and COOLING POWDER, according to its accompanying directions.
Cough Mixture.
A remedy for all coughs proceeding from colds, asthma, chronic catarrhs, consumption, influenza, and inflammation of the lungs or pleura. It is also found very useful in ameliorating the violence of whooping cough.
For a more full and particular description of disease, and the medicine to be applied, I beg leave to refer you to my Circular, in pamphlet form, which may be found wherever the medicines are for sale, and to the remarks accompanying them.

LOZENGES! LOZENGES!
FALES'S Cough, Worm, Headache, and Diarrhoea or Dysentery LOZENGES are safe, certain and agreeable remedies for the diseases for which they are recommended.
Numerous, speedy and surprising cures have been effected by their use, hence their popularity.
Dyott's Oracle of Health, (Philadelphia) says that Fales's Medicated Lozenges are considered by those who have used them, to be far superior to Sherman's or any other introduced into that market.
THE COUGH LOZENGES
Are beneficial in all cases of common colds, hooping cough, asthmatic affections, inflammations of the throat and lungs; they are also particularly beneficial for the croup, and a very good substitute for the celebrated HIVE SYRUP, Cough Cakes, Quinney Cardiacs Pulmonary Balsams, &c.
THE WORM LOZENGES
Are a safe and sure remedy for Worms. Two or three is a dose for very small children, and five or six for larger ones.
THE DYSENTERY LOZENGES
Are a certain and agreeable remedy for Dysentery, Diarrhoea and bowel complaints of children—Full directions as to diet and manner of taking them, accompany each box.
THE HEADACHE OR CAMPHOR
Lozenges are beneficial in cases of nervous headache, in febrile affections of a typhus character. They are useful in Rheumatism and peripneumony, also in eruptive diseases, to favor the eruption or bring it back when it has suddenly receded from the skin, as sometimes happens in measles and small pox.
For sale, Wholesale and Retail, by N. B. FOLSOM, Jr., Agent, and by the other Druggists in the city.
FALES'S CYPRIAN HAIR TONIC,
FOR THE GROWTH, PRESERVATION AND RESTORATION OF THE HAIR.
No matter how bald a person may be, a growth of hair will be produced, and as naturally on the herbage grows on the plain, or the life in the valley. This tonic is warranted to cleanse the hair from Dandruff, and every other accumulating substance. Is your hair dry and falling off—the tonic will moisten and fix it strongly in the head. Is your hair thin or your head bald—the tonic is warranted to satisfy the largest desires in thickening the hair in the first case, and covering the Bald Head with natural hair in the second.
It is composed of those remedial agents that restore the skin at once to a sound and healthy condition: when thus restored, you will soon discover on the head a short, soft, and beautiful growth of young hair gradually increasing in length, till it becomes as your other hair was before you began to lose it.
The question is often asked, from what is the word Cyprian derived? Ans.—In the word Cyprian, the name of a beautiful island in the Mediterranean sea, as well as the inhabitants of that island, are so well known for their fine glossy hair, as to be a proverbial expression. It is known, however, that any other people, except those of Cyprian, have never used this Tonic until its introduction into the United States.
For sale, wholesale and retail, by N. B. FOLSOM, Jr., and at retail by the other Druggists in the city.

Old Newspapers for sale at this office,

ABSOLUTE HEAL OIL.
10,000 TRIALS, and all successful, prove DALLEY'S MAGICAL PAIN EXTRACTOR inestimable. It not only cures quicker, but gives no additional pain, nor leaves a scar. Fire is positively rendered harmless. (\$10 has been offered six months to any person returning an empty box, and saying that all agony on anointing is not extracted in a few minutes, yet not one from thousands of trials since has claimed the bonus.) Parents anxious to guard against general injuries and save money, time, torture and life, and prevent their offspring from being disfigured by burns, or even small-pox pustules, (it possessing the enviable power to replace the cellular organs destroyed,) can do so by obtaining this inestimable salve. Many deeply burnt cases in the city can be seen, and one entire face burnt over and wounded three distinct times in the same spot while healing, yet in no case can be traced the least cicatrice or mark! For all kinds of hurts, its rapid, soothing effects, are alike important; even sore eyes, ALL INFLAMMATIONS and BROKEN BREASTS would be unknown. The toilet and nursery, for clearing the skin of pimples, removing chafe, &c., will find it indispensable. Once using only will forever establish it the sovereign HEAL-ALL quality. After this notice, heads of families allowing torture for months, and ultimately distorted features, can never wipe away reproach, justly uttered by a disabled child, for neglecting to triumph over fire.
Entered according to act of Congress, A. D. 1841, by COMSTOCK & CO. in the Clerk's Office of the District Court of the United States for the Southern District of New York.
Warranted the only genuine.
COMSTOCK & CO., Wholesale Druggists, New York, have become the sole wholesale agents for Mr. Dalley in America for twenty years. All orders must be addressed to them, except for the cities of Albany and Troy.
